

Environmental Policy of Stockholm Skavsta Airport

Stockholm Skavsta Airport recognizes its responsibility to minimize the environmental impacts of its business activities and will pro-actively review how to manage those effects. In pursuit of this objective, Stockholm Skavsta commits to:

- Comply with relevant permit and legislation.
- Maintain an Environmental Management System at the airport.
- Respect the environment and prudent use of natural resources.
- Strive to improve energy efficiency and reduce carbon emissions caused by airports operations.
- Ensure commitment by employees and airport partners of environmental procedures established.
- Actively participate in local, national or international activities aimed at mitigating the environmental impact of airports and developing sustainable development policies.
